

# Martinsville Studio

361 Owens road  
Martinsville N.s.w 2265

To all members of Northern Photographic Federation affiliated clubs, I hope your Christmas and new year celebrations went well with family and friends. As we enter 2023 I have some exciting news, A new studio has been established by a member of the Wangi camera club and it has been set up to cater for camera club members.

**Martinsville Studio** is a professional studio with state of the art professional lighting and modifiers. Lights are constant lighting showing you exactly the effect your light set up will produce. There is no need for flash triggers with this type of lighting. There is the possibility to set up two or three shooting areas at the same time. There is a change room, make up station, toilet and kitchen facilities – Kettle for Tea/coffee, Fridge/Freezer and Microwave.

On **Thursday 2<sup>nd</sup> February 2023** we will have an open/social photography day. It will be an opportunity to check out the new facility and catch up with friends from other clubs.

The entire property will be open so there will be opportunity to do some other photographic activities to add to your portfolio. In addition to the Models in the studio we will be doing Landscape, old cars, Macro, Floral and the property has extensive wildlife, all of this will be guided by experienced club photographers, experts in their area. The property is very picturesque so bring a blanket and some snacks and make a day of it.

As a special surprise **Tim Bauer** (work permitting) and **Doug Coleman** will be in the studio doing their thing, they will be backed up by **John Wallace** from C R Kennedy with his usual array of equipment and solid advice. I believe John will have the top of the line Phase one camera with him, so if you have ever wondered what shooting a 150 mega pixel monster is like.....he just might let you have a go.

**Les Porter** As always will have some dry boxes and a range of the Ilford paper available.

The Property will be **open from 9:30am** and we will finish up around 4pm the event will move forward regardless of the weather as we have plenty of under cover area. **Please try to RSVP your club contact if you think you are likely to attend. THIS IS A FREE EVENT**
